*"Coliseum Northside Hospital employees were very fortunate to spend some time with Connie during Nurses Week. She not only inspired the audience but also gave them permission to laugh until they cried. Connie was quite entertaining, from sharing her own stories to performing beautiful music. Healthcare is often a demanding and always an emotional profession and takes a certain type individual to be able to take on that enormous responsibility, day after day. Connie helped validate what we as caregivers often feel but, by giving us permission to laugh whenever possible, she also helped us feel refreshed and ready to tackle another day. Thank you!"*

*"The humor and laughter that you brought to our guests was heartwarming. Many of the women were cancer survivors. The opportunity to laugh and just have fun with other women provided an immediate connection. I wish you the very best and I do hope you will continue to share your love, music, humor and wisdom with others who just need an opportunity to laugh."*

*“What a blessing it was to have Connie minister to our ladies at our annual “Season of Joy” women’s event! There is no doubt she seeks the Lord for His message to speak over each audience. She was “spot on” for our ladies and what they needed. She poured such love, encouragement and humor over them. You could sense a sweet presence of the Lord filling the room. Connie has the ability to engage the audience in such a way that you feel as though you’re at home...visiting with a dear friend. She’s the “full meal deal”...sings, plays multiple instruments and makes you laugh until you cry and all your makeup is in your napkin! Our ladies walked away encouraged in their spirits and refreshed for the journey ahead. As one lady said, “I didn’t realize how much I needed that...just to laugh, relax and take a breath”. Thank you, Connie, for the much needed laughter that is medicine to our souls!”*

The humor you incorporated increased the impact of the information a hundredfold. Being able to communicate so much information in such an interesting, engaging manner is the result of a gift and hard work on your part. Thank you, Connie!”*

I have no reservations recommending Connie for future events – she will be a hit wherever she goes.”*
